

FRATERNAL  
EMBLEMS  
FOR  
BUILDERS' HARDWARE

MANUFACTURED  
BY

P. & F. CORBIN  
NEW BRITAIN, CONN.

HERATERNAL Emblems incorporated into the furnishings and permanent fixtures of a building or rooms belonging to an order give a distinctive character to the surroundings that is in every way desirable to have.

This is especially true of the hardware and art metal work, such fixtures being among those which are the most prominent to the eye, the most frequently used and the most permanent.

We illustrate on the following pages a few of the many emblems we have made for this purpose, special knobs, escutcheons, plates, etc.

We can assure those desiring hardware of this kind, careful attention to their wants that will result in their getting special goods made with all the skill that years of experience have enabled us to acquire; made with attention to detail in regard to design, material and workmanship that distinguishes and characterizes the superior quality of the Corbin product.

P. & F. CORBIN.

No. S 3655  
2¼ in.
