Price per Dozen, \$1 44.

All Fancy Buttons furnished in Gilt, Nickel, French Gold and French Bronze, at above prices.

The foregoing Buttons are VERY SUBSTANTIAL as well as *ornamental and stylish* carpet fasteners from the fact that they never need to be drawn out except when moving. A carpet can be taken up and replaced any number of times without affecting the button or tack.

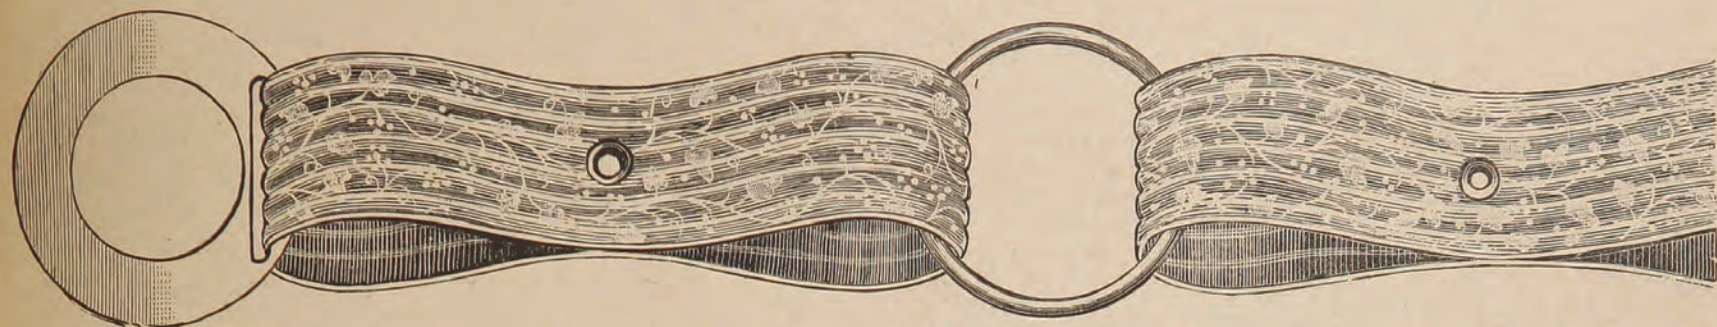

DIRECTIONS.

The Patent Button should be driven into the Riser with a hammer, while the accompanying wrench or key is held on the top of the button so that the plating is not injured by the hammer. If the carpet is to be removed, unscrew the button with the key, after which the carpet is easily taken up, leaving the nail in the stairs. When replacing the carpet, force the carpet over the point of the nail by means of the hollow key. Afterwards screw the button on the nail.

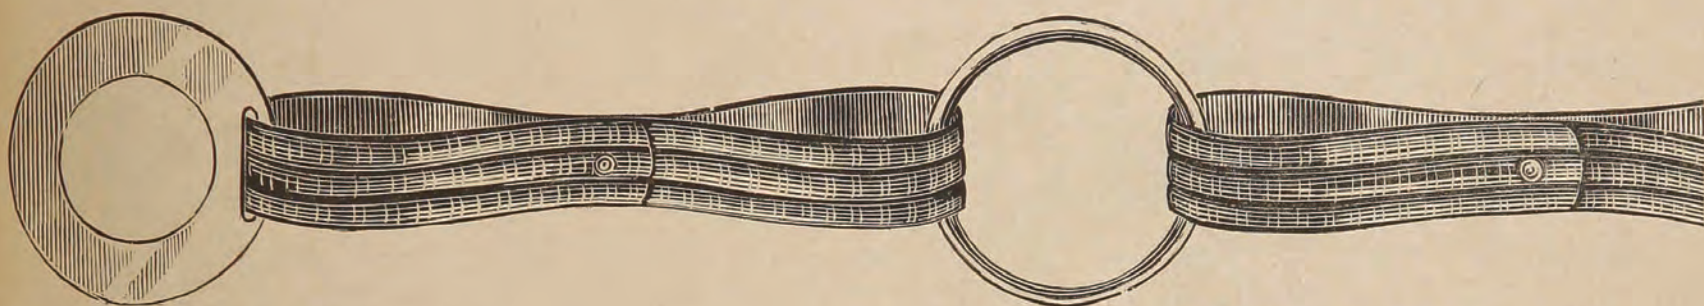

BRASS CURTAIN CHAINS.
