WELCOME TO ALBANY

GREETINGS TO ADCA MEMBERS 2021 ANNUAL ADCA CONVENTION

It has been a long dry period since our last real Convention. So here we are at the 2021 Convention (or, perhaps, the 2020.2 one). Last year's virtual Convention worked out remarkably well, but it was no substitute for real people. And equally important, one where we can handle the knobs and actually talk to our friends.

The Convention will be held in the Albany Hilton, which was extensively renovated 2 years ago. Albany is a hilly town, and the Hilton is half way up the hill, a handy location. This year's activities are perhaps less definitive than in prior years. For example, Oleanna, Fredrick Church's Morish house is nearby and wonderful, and we expect it to be fully open for tours by September, but at this point, nothing is guaranteed. But we will do the best we can.

Another fantastic building is the State Capital, a few steps from the Hilton. If it seems somewhat of a *mélange*, it is. During its period of construction, they say, the Governor did not have a lot of moxie, but he did have exclusive power over construction and decoration. So, in the course of three Governors, each tried to put his stamp on the building. You will be able to study the results.

Albany was also the starting point for one of the country's most important infrastructure works, the Erie Canal. Albany is near where the Mohawk River flows into the Hudson. The Mohawk Valley, which stretches to Buffalo and environs, is one of the few breaks in the Appalachian Mountain range North of Alabama, and the concept of a canal was long a subject of discussion. New York requested Federal funds to build it, given the beneficial impact it would have on the nation but was turned down. So the Governor of New York, Dewitt Clinton, decided that the State of New York would build it, beginning in 1817. Where the Mohawk River petered out, the Canal builders took over, digging over 350 miles of canal through New York's wilderness and locks to raise and lower the canal. When necessary, the canal was built on high bridges to span valleys (like in downtown Rochester).

When completed in 1825, it opened the way for midwestern products to reach the East, hence to New England, the Atlantic Coast, and to Europe. Traffic went both ways. With further canals, shipping could reach from Lake Erie to the Mississippi River. It cemented New York City's position as the center of commercial and financial activity.

In the 1820-30s however, railroads were being developed, and by the 1850s steam engines had been developed to carry heavy cargos up inclines. They were faster, not limited in terrain, did not require a constant flow of fresh water and did not have to close down in

the winter. So canals gradually fell out of use. The Erie is still there (unlike most former canals elsewhere), occasionally carrying some freight. It also has canal boats which you can rent and tour with.

A final point: this year the Convention is around the dates for the Brimfield Show. To be precise, Brimfield largely opens on September 7, and continues to the 13th. So Convention goers can search Brimfield for four days (7-8th and 12-13th) without missing any of the Convention.

We hope to see all everyone who can possibly make it there, September 8-11, 2021.

HOW TO GET TO ALBANY

There are several possible ways to get to Albany (some more interesting than others). Here are the alternatives:

1. By Air: Albany has an airport, but you may have to change planes to get from your home to there. But airplanes are (sush, a secret) boring if convenient. You can also fly into New York and use one of the other means to get up to Albany.

2. By Train: The train to Albany starts at the Pennsylvania Station in New York. If you land in Newark, there is public transportation from that airport to New York Penn Station. (Be aware, Newark also has a Penn Station, which won't help you get anywhere). La Guardia and JFK have buses to midtown, but you may want to take a taxi or Uber. The train ride is about 3 hours to Albany. If you get a widow seat on the left side (facing forward), you will have the best views and sometimes may believe that the train is actually on the Hudson river. Part ways up, you will see what appears to be a ruined castle on an island. It is Bannerman's Castle built in 1901. The island it is on was the site of some of the defenses (never completed) intended to stop the British from sailing up the Hudson during the Revolutionary War. A chain across the Hudson a little further north, near West Point, was successful.

Francis Bannerman VI immigrated with his family from Northern Ireland. The family began a military supply business by purchasing surplus equipment at the end of the Civil War. They outfitted volunteers for the Spanish-American war, and when that was won, purchased military equipment from Spain, before it evacuated, and then 90% of that captured by the United States. Their illustrated catalogue filled 300 pages.

Bannerman purchased the island in 1900, and built an arsenal on the it (having decided that it was not a good idea to store a vast munitions dump in the middle of New York City.) It is the arsenal that you see as the now-ruined castle; there was a smaller castle nearby used as his residence. Further construction was halted in 1918 upon Bannerman's death. Two years later an explosion destroyed a portion of the complex, and in 1969 a fire consumed much of the Arsenal. The island was purchased by New York State, but in 2009 large portions of the castle collapsed. So the Castle is now a picturesque ruin. If you get off the train (or car) in Beacon, boat trips or kayak tours are available to Bannerman's Island

West Point is also on the opposite shore of the Hudson. You will also pass through some charming Hudson River villages. You arrive across the river from Albany and take a taxi to the hotel. This is a very scenic mode of travel.

3. By Car: Bring your own or rent one and drive up the Hudson. You can visit a number of cool sites but it may take more than a day. My advice: if you are flying in, try to land at Newark and rent your car there. Getting to the Hudson River will be somewhat simpler than from JFK or La Guardia on Long Island. There are a number of places you should consider visiting on your **way to, from, or while in** Albany. Note, however, to coordinate your trip with the days the sights you wish to see are open, particularly in post-pandemic times. For example, in pre-COVID times Lyndhurst was closed Tuesdays and Wednesdays, so if you planned to see it and yet arrive for tour day on Thursday, you would have to hit it on Monday or earlier. Purchasing tickets in advance may be a good idea, particularly because it gives you time to pick among various possible tours. It also may not be easy to predict waiting times, given that this will be at the height of the tourist season. So don't expect whirlwind tours. What follows is a simple list; please refer to Wikipedia entries and websites for more details.

CONVENTION PROGRAM ADS

All members (whether you are attending or not) are invited and urged to contribute to the Souvenir Program booklet this year. This is yet another way to support your club. Create an interesting entry relating to knobs, hardware, collections, your business, etc.

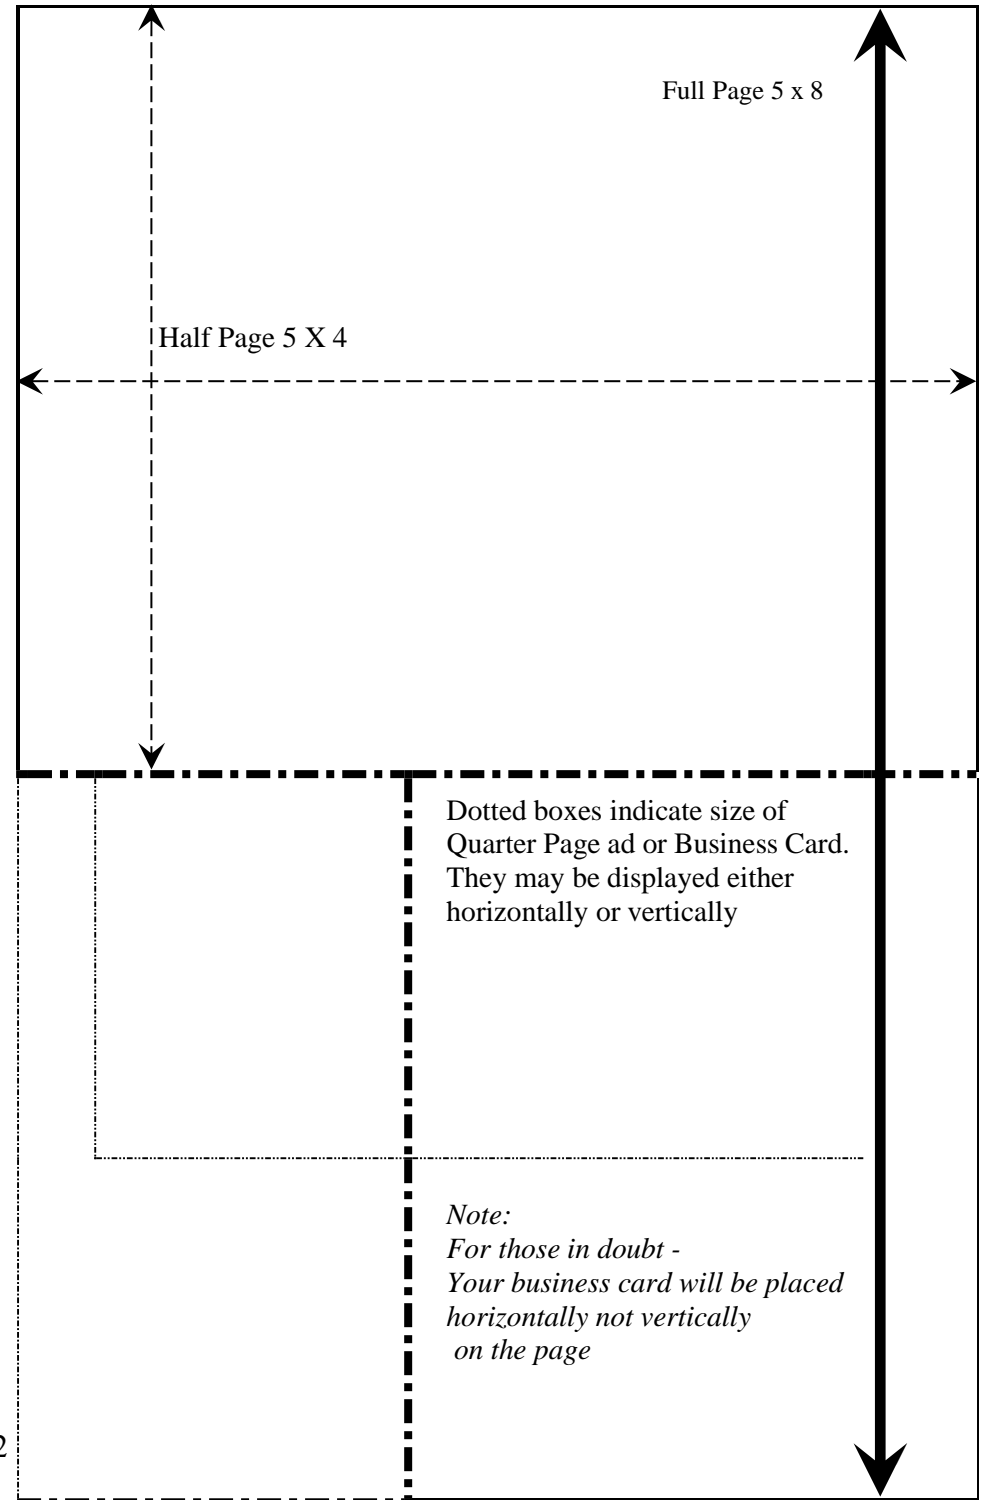

Please use the following guidelines to submit copy for inclusion in the souvenir program.

The preferred method is via email to rhattbutler@erbutler.com. All copy must be complete and ready to be scanned. It may be an ad you have used before in a publication of any sort. If so, we need the ad itself, taken from the publication. Cut it out of the page and send it in.

We can't use a hand drawn sketch or a rough copy of something unless that is exactly the way you want it to appear in the booklet. If you want your business card reproduced, we can handle that. The same applies for greetings or well wishes.

Hand written copy is fine, typed is better. We will put it in final form for the printer. Ad copy cannot be returned to you unless absolutely necessary. If the copy is to be returned, please include a self-addressed stamped envelope. Payment is to be made at the time of submission, personal check or money order (NO CASH).

Make check or money order payable to ADCA and send to:
