

THE ORNAMENTAL WOOD COMPANY,

OF BRIDGEPORT, CONN.,

Respectfully invite the attention of a discriminating public to their unparalleled productions in natural Wood, comprising:

DOOR KNOBS, SHUTTER KNOBS, MEDALLIONS,

ESCUTCHEONS, MONOGRAMS, LEAVES, ROSETTES,

MOULDINGS, CURTAIN PINS, ETC.

The attention of RAILROAD COMPANIES, ARCHITECTS, BUILDERS, AND FURNITURE MANUFACTURERS, is called to the fact that although these manufactures have but recently been introduced, they have received the highest commendations from all who have seen them. Arrangements have already been made for their use in the finish of prominent public buildings, and they are offered in full confidence that they cannot fail to supply a demand long felt for articles of use and ornamentation, which it has hitherto been difficult to supply, and at prices which place them within the reach of all.

Especial attention is called to their admirable adaptability in the finish and adornment of Railroad Passenger Cars, for which purpose they particularly commend themselves, and are rapidly being brought into notice and use.

These manufactures can be furnished in different kinds of wood, and when parties desire it they will be prepared for exclusive use, upon furnishing designs and paying for the dies.

A large stock of the goods embraced in the schedule is kept constantly on hand, and new designs are being continually added. All orders will be promptly filled, and any information in reference to special designs will be cheerfully furnished upon application to the Company or its Agents.

Descriptive Price Lists and Illustrated Catalogues will be furnished upon application at the manufactory, or at the Company's store, No. 77 Chambers Street, New York, or at any of their several Agencies.
